HOW IT WORKS:

For You

With online booking you can easily select the block of appointments you would like to make available to book online. When an appointment time is selected by a patient, you can accept or reject the appointment. Additionally, blocks of appointments set for online availability can also be booked by the clinic within normal workflows, automatically removing it from the online options.

For Your Patient

To book online, patients can access a link posted to your website, or sent by email. Patients simply select their provider, preferred time, submit the appointment request and then set up a profile in Medeo (or use their existing profile). Patients will receive a confirmation of their appointment, once it is accepted by the provider, or clinic.
